

Prairie Green School

Redbird Farms Wildlife Area

BJ

I liked when we went to the pond and found a trail of coyote poop. Then found a den. We had walked down a washout to the river and saw all the orange pollution.

Jack

I really like checking out books. I also liked playing on the playground before tennis. When we went to Old Man's Creek I found a stick and enjoyed whacking walnuts with it.

Paula

I am so thankful that we took advantage of the beautiful weather. I love the amount of freedom and creativity seen this week!

Lucy - We went on a field trip and we went to a pond. Then we were trying to go through a field of burrs but it got stuck in my hair.

Jorge

I liked to when we went on the tree. We climbed on to the other side of it.

Claire - I liked when we climbed to the other side of the tree and when we played in the mud. And I liked to do the landscape.
